CONTENTS OF VOLUME 22

Number 1

P. Cassier, M. André, D. Pastor, M. D. Piulachs and **X. Bellés** — 1 Age-dependent neurosecretion release induced by dopamine in the corpora cardiaca of *Blattella germanica* (L.) (Dictyoptera : Blattellidae)

L. Xué, R. Dallai and **W.-y. Yin** — 13 Tracheal ultrastructure of Protura (Insecta : Apterygota)

M. S. Jarial — 25 Fine structure of the rectal pads in *Grylloblatta compodeiformis* (Walker) (Orthoptera : Grylloblattidae) with reference to fluid transport

E. Gaino and **E. Bongiovanni** — 41 Scanning electron microscopy of the eggs of *Palingenia longicauda* (Olivier) (Ephemeroptera : Palingeniidae)

W. W. K. Cheung and **A. H. Purcell** — 49 Ultrastructure of the digestive system of the leafhopper *Euscelidius variegatus* Kirshbaum (Homoptera : Cicadellidae), with and without congenital bacterial infections

H. W. Krenn and **G. Pass** — 63 Wing-hearts in Mecoptera (Insecta)

Numbers 2–4

77 Editorial

SECTION I: CUTICLE

D. Carter and **M. Locke** — 81 Why caterpillars do not grow short and fat

K. Hiruma and **L. M. Riddiford** — 103 Molecular mechanisms of cuticular melanization in the tobacco hornworm, *Manduca sexta* (L.) (Lepidoptera : Sphingidae)

A. De Cock and **D. Degheele** — 119 Cytochemical demonstration of chitin incorporation in the cuticle of *Trialeurodes vaporariorum* (Westwood) (Homoptera : Aleyrodidae) after buprofezin treatment

J. S. Ishay, T. Benshalom-Shimony, B. Dabah, I. S. Shurz, Y. Shevach, A. Ben-Shalom and **V. Barenholz-Paniry** — 127 Electrical properties of the cuticle, silk caps and comb of Oriental hornet *Vespa orientalis* (Hymenoptera : Vespidae)

K. C. Binnington — 145 Ultrastructure of the attachment of the bacteria *Serratia entomophila* to foregut cuticle of *Costelytra zealandica* (Coleoptera : Scarabidae) and a review of nomenclature for insect epicuticular layers

SECTION II: STRIDULATORY AND HEARING ORGANS

L. H. Field — 159 Introductory remarks

L. H. Field — 163 Structure and evolution of stridulatory mechanisms in New Zealand wetas (Orthoptera : Stenopelmatidae)

W. J. Bailey — 185 The tettigoniid (Orthoptera : Tettigoniidae) ear: multiple functions and structural diversity

R. B. Toms 207 Incidental effects and evolution of sound-producing organs in tree crickets (Orthoptera : Oecanthidae)

E. Sismondo 217 Ultrasubharmonic resonance and nonlinear dynamics in the song of *Oecanthus nigricornis* F. Walker (Orthoptera : Gryllidae)

SECTION III: OVARIOLES AND OOGENESIS

J. Büning 235 Introductory remarks

J. Büning 237 Germ cell cluster formation in insect ovaries

S. M. Biliński 255 Structure of ovaries and oogenesis in entognathans (Apterygota)

F. Giorgi, A. Cecchettini, P. Lucchesi and **M. Mazzini** 271 Oocyte growth, follicle cell differentiation and vitellin processing in the stick insect, *Carausius morosus* Br. (Phasmatodea)

H.-J. Ferenz 295 Yolk protein accumulation in *Locusta migratoria* (R. & F.) (Orthoptera : Acrididae) oocytes

M. Gruzova and **F. Batalova** 315 Oogenesis and meiotic divisions of predatory gall midge, *Aphidoletes aphidimyza Rond.* (Diptera : Cecidomyiidae)

H. O. Gutzeit, E. von Seydlitz-Kurzbach and **R. Neuschröer** 335 How *Drosophila* (Diptera : Drosophilidae) follicles become spatially organized and obtain their ovoid shape

M. Bownes, E. Ronaldson, D. Mauchline and **A. Martinez** 349 Regulation of vitellogenesis in *Drosophila*

E. Huebner and **W. Diehl-Jones** 369 Nurse cell–oocyte interaction in the telotrophic ovary

SECTION IV: EGG CHORION

M. Mazzini, M. Carcupino and **A. M. Fausto** 391 Egg chorion architecture in stick insects (Phasmatodea)

M. P. Kambysellis 417 Ultrastructural diversity in the egg chorion of Hawaiian *Drosophila* and *Scaptomyza:* ecological and phylogenetic considerations

SECTION V: SPERMATOZOA

R. Dallai and **B. A. Afzelius** 449 Substructure of the axoneme of pterygote insect spermatozoa: phylogenetic considerations

J. Kathirithamby, M. Carcupino and **M. Mazzini** 459 Comparative spermatology of four species of Strepsiptera and comparison with a species of primitive Coleoptera (Rhipiphoridae)

SECTION VI: MIDGUT CELL JUNCTIONS

R. Dallai, E. Trastullo, P. Lupetti and **C. Mencarelli** — **473** Unusual cytoskeletal association with the intercellular septate junction in the midgut of Collembola (Insecta : Apterygota)

I Taxonomic Index

III Subject Index

Number 5

F. Marec, J. Leutelt, W. Traut and **K. W. Wolf** — **487** Visualization of polyfusomes in gonads of a moth, *Ephestia kuehniella* Z. (Lepidoptera : Pyralidae), by a microspreading technique and electron microscopy

H. Akai, T. Nagashima and **S. Aoyagi** — **497** Ultrastructure of posterior silk gland cells and liquid silk in Indian tasar silkworm, *Antheraea mylitta* Drury (Lepidoptera : Saturniidae)

D. M. Olson and **D. A. Andow** — **507** Antennal sensilla of female *Trichogramma nubilale* (Ertle and Davis) (Hymenoptera : Trichogrammatidae) and comparisons with other parasitic Hymenoptera

G. Werner and **K. Werner** — **521** Changes in the nucleus, endoplasmic reticulum, Golgi apparatus, and acrosome during spermiogenesis in the waterstrider, *Gerris najas* Deg. (Heteroptera : Gerridae)

S. M. Newman Jr, I. C. McDonald and **B. Triebold** — **535** Antennal sexual dimorphism in *Diabrotica virgifera virgifera* (LeConte) (Coleoptera : Chrysomelidae): male specific structures, ultrastructure of a unique sensillum, and sites of esterase activity
